# INK MIXER

Adjustable mixing blade

Self centering locking system

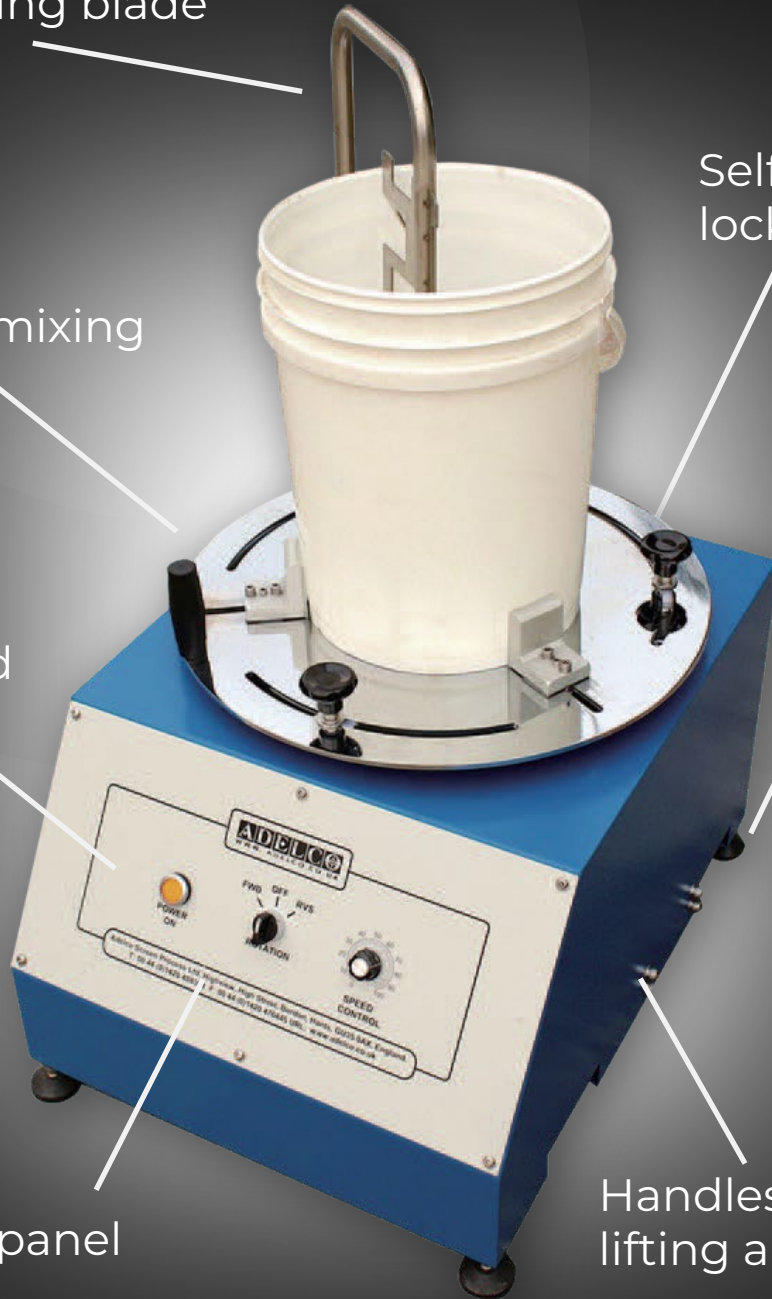

Reversible mixing direction

Leveling feet

Variable speed control

Control panel

Handles for easy lifting and moving

# Features

The **Adelco Ink Mixer** is a durable and high-performance machine, designed for efficiently mixing ink in volumes between 5 and 22 liters (1 to 5 gallons).

Built with a **high-torque AC motor** and adjustable stainless steel mixing blades, it can handle viscous liquids with ease, making it an ideal choice for any screen printing shop.

## Key Features:

- Power Supply: 200-240V, single phase, 50/60 Hz, 0.2 amps
- Speed Range: Adjustable from 0 to 80 RPM
- Mixing Blades: Angle-adjustable, easy-to-change stainless steel blades
- Motor: High-torque AC motor with speed control for precise mixing
- Capacity: Suitable for containers ranging from 5 to 22 liters
- Clamping Mechanism: Fast self-centering clamp for secure container placement
- The machine is user-friendly, featuring a simple control panel and a fast, self-centering clamping mechanism for quick setup. It's a must-have tool for screen printing shops looking for efficiency and ease of use in their ink mixing process.

<b>Power</b>	200 - 240v Single Phase, 50/60 Hz, 0.2amps
<b>Speed</b>	0 - 80 RPM
<b>Blades</b>	Easy change, adjustable angle, stainless steel.
<b>Application</b>	Suitable for viscose liquids
<b>Motor</b>	High torque AC motor & speed control
<b>Capacity</b>	5-22 litres (1-5 gallons)
<b>Clamping</b>	Fast self-centering clamping mechanism
<b>Dimensions</b>	70 x 60 x 92cm
<b>Packed dimensions</b>	80 x 75 x 60cm
<b>Weight</b>	Net 70kg - Packed 90kg
